What is the EU Lab?

The EU Lab is a permanent group of analysis, debate and evaluation of European legislative measures proposed or adopted under Title V of the Treaty on the Functioning of the European Union. It is aimed at building up a network of scholars and experts, bound by their engagement in contributing to the legislative processes of the European Union with academic expertise and scientific approach, and motivated at assessing the implications of EU measures into society.

Which are the EU Lab’s goals?

The EU Lab will produce and disseminate legal reports, strategic analysis and pre-assessment results on EU legislation in the field of migration and asylum with the aim to promote a sound and accurate debate on European legislation. The outcomes of the EU Lab’s activity will be brought to the attention of members of the European Parliament (MEPs) and other decision-makers via seminars, workshops and informal meeting, with a view to enhance the awareness of the legal implications of proposed legislative measures and amendments and possibly influence the outcomes of the legislative debate.

How does the EU Lab work?

The Members of the EU Lab, alongside other invited participants (ADiM Members, Representatives of national and European Institutions), will gather in different venues: Florence, Bologna and Brussels. The meetings will be held on a regular basis (every 2 or 3 months) with a view to identify key areas of analysis, discuss reports, organise dissemination and outreach activities.

The working languages are Italian and English.
